Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, plains and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them free from disease as when born. Dyspepsia and liver complaint are the direct causes of 75 per cent. of such maladies as biliousness, indigestion, sick headache, costiveness, nervous prostration, dizziness of the head, palpitation of the heart and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10c. Try it. nov25yl

Fryer is on each, as none are genuine without it.

He Knew When He Had Enough.

"Yes, I have been up in northern Michigan teaching school all winter," said a south-bound passenger, with long scars on his face, "but I haven't had much fun. It's a tough job, and I don't think I'll go back again. I know when I have enough. The boys up there are a bad lot. I thought I could handle 'em, but the very first day when I stood 'em up in a row for a lesson in spelling, something astonishing happened. Little streams of black stuff began to come down on me from the direction of the ceiling. On making an investigation I found it was ink, but for a long time I couldn't tell where it came from. Soon I was black and stained from head to foot, and the spelling book, which I held in my hand, was so daubed up I could hardly read a word out of it. Where do you suppose those streams came from? From little holes about as big as a pin bored between the incisors of those boys. They would take a mouthful of ink, put on the pressure with their tongues and cheeks, and shoot out a stream that would fly thirty feet as straight as a die. They broke up that spelling lesson, and the worst of it was I couldn't get back at them, because I never could tell which boy was the offender. Those chaps had bored those holes on purpose, and they had more fun than you can shake a stick at. But it was rough on me. After having my complexion and four suits of clothes spoiled, I got mad and attempted to thrash every boy who had ink stains on his lips. That was where I got their scars. How? Why, from my fingernails. The boys had let their nails grow an inch long, turned them under into claws, and sharpened the ends to a fine point. They could scratch like wild cats with 'em, and it is a wonder I got off with my life. But I did, and taught that school through the whole winter term, just the same. How? By wearing a sheet-iron mask over my face and a gum-coat on my back, carrying two revolvers in my belt, and keeping a constable in the ante-room. Don't think I'll take the job next winter, though. I'm no hog."—[Chicago Herald.

A Fact Worth Knowing.

A physician in Genesee Co., N. Y., who has used Gilmore's Aromatic Wine in his practice, for several years, recently wrote to the proprietors as follows:—"I do not think you give sufficient publicity to the value of your Aromatic Wine in all cases of dysentery, cholera morbus and Summer complaints generally. I have for three seasons past used it in many severe cases of the above, and it has never failed to afford speedy and gratifying relief." No proprietary remedy has ever received such general endorsement from regular physicians of high standing as Gilmore's Aromatic Wine. Agent for Reno, W. Pinniger.

short but Sweet.

As a glittering example of conciseness the following comes from the walls of a deserted shanty in the heart of Dakota: "Fore miles from a naber; sixteen miles from a postoffice; twenty-five miles from a railroad; a hundred and atey from timber; haf a mile from watter; God bles our h. me. We're gone east to git a fre-h start."

WEEKLY GAZETTE

TO PHOENIX IN THE EAST.

A Sea-Sick Passenger.

On the ocean cars little about a storm. He is positively indifferent whether he is washed overboard or not. But, at right by a wineglassful or two of Hostetter's Stomach Bitters, he feels renewed interest in his personal safety. This fine corrective neutralizes in brackish water—often compulsory drunk on shipboard—the previous derangement of health—the pernicious injuries which give rise to disorders of the stomach, liver and bowels. To the mariner, the tourist, the Western pioneer and miner, the Bitters is invaluable as a means of protection against malaria, when its seeds are latent in the air and water. To the effects of overwork, mental or manual, it is a most reliable antidote, and a the debilitated and nervous, it affords great and speedily felt relief and vigor.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure you get the genuine. Because he can make more profit, he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief to all throat, lung and chest affections. Trial bottle free at S. J. Hodgkinson & Co.'s drug store.

Don't Trifle with any Throat or Lung Disease. If you have a Cough or Croup or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNIGER, Druggist.

Saved His Life.

D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with phthisis, also diabetes; the pains were almost unendurable; the urine sometimes almost threw him into convulsions. He tried all the remedies and got relief from the first bottle, and after taking six bottles, was entirely cured, and had gained in flesh 18 pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at 50 cents a bottle by S. J. Hodgkinson & Co.

\$5,000—Reward—\$5,000.

Old and reliable Medicines are the best to depend upon. Acker's Blood Elixir has been prescribed for years for all impurities of the Blood. In every form of Scrofulous, Syphilitic or Mercurial Diseases, it is invaluable. For Rheumatism, has no equal.

W. PINNIGER, Druggist.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any disease, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Elix was prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

If you Would enjoy your dinner and are prevented by Dyspepsia, use Acker's Dyspepsia Tablets. They are a positive cure for Dyspepsia, Indigestion, Flatulency and Constipation. We guarantee them. 25 and 50 cents.

THURSDAY, MAY 26, 1887

The French and Germans are growling at each other once more, in tones that some of the correspondents deem very warlike. When the Schmebels row was so peacefully terminated it was thought that there was no chance for fighting; but the irrepressible conflict is on the point of breaking out again as badly as ever. The trouble this time is over the formation of a new Ministry to succeed the Goblet Cabinet, recently overthrown in Paris. The one man who seems certain of a place in the new Government is Boulanger; and Germany evidently thinks that a Cabinet in which he is the only known quantity may be the reverse of pacific. On the other hand, the French press not unreasonably declare that France has a right to select her own Government without reference to other nations. Thus relations are restored to their normally strained condition. It certainly seems, if the suspicion between the two nations is so great that one of them cannot undergo a change of Ministry without putting the other under arms, that they may as well fight the matter out and settle the question.

E. Ramsey has just returned to Miles City, Montana, from a Winter's stay in New York. He informs the *Stock Growers' Journal* that New York is the horse market of the country, but that the sale of Western horses has been nearly ruined by the fact of people shipping in and selling wild and unbroken horses. Such experiences have been had with these horses that the fact that a horse has a brand is enough practically to throw it out of the market, no matter what its other recommendations may be. Buyers have been actually scared from the purchase of range-bred horses by the shiftless and low price market they have made for themselves. The market however is a good one and an open one if thoroughly broke horses can be shipped in and the existing prejudice against the range horse can be overcome.

The Postmaster General and Judge Bryant, Assistant Attorney General for the Postoffice Department, are revising the postal laws and regulations as authorized by Congress last Winter. The work is done at the Postmaster General's residence, and he is on that account out to callers at the Department afternoon lunch. The laws and regulations have not been codified since 1879, when Postmaster General Key had his private Secretary sling together a book of 250 pages bearing on the postal services. Colonel Vilas and his legal adviser, being good lawyers, do the job themselves. There are 8,000 postmasters in the country who are without a copy of the postal laws, the edition having been exhausted two years ago.

It is asserted by the *Macon Telegraph* that "if Jefferson Davis lives five years longer and retains his faculties he will address the people of Boston in Faneuil Hall upon the subject of Constitutional liberty." It would be interesting to have the esteemed *Telegraph* explain the means by which Mr. Davis will establish that degree of dictatorial power which will be necessary to prevent the people of Boston from getting away.

The new comet has no tail. This is an imposition on the human family. The world is satisfied that the tad-pole shall drop his tail and merge into a frog, but when heavenly visitors like comets make their appearance, they must come out with a sweeping tail if they expect to be appreciated. The people do not want any new-fangled comets that have dropped their tails.

An effort is being made to induce the National Educational Association to hold its session of 1888 in San Francisco. On Monday evening last there was held in San Francisco

a meeting of the committee appointed for this purpose by the Board of School Directors of that city. The committee consists of Joseph O'Connor, J. W. Anderson and Albert Lyser, of San Francisco; Fred M. Campbell, of Oakland, and C. S. Young, of Reno. Another committee, authorized by the Legislature, has been named by Governor Bartlett. This consists of Hon. Ira G. Holt, of Sacramento; Professor Charles Allen, of San Jose, and one other person. These committees will attend the meeting of the Association in Chicago next July to make the proper representations of the claims of San Francisco for this meeting. Should San Francisco be selected, it is estimated that there would be from fifteen to twenty thousand educators in attendance. These State, City and County Superintendents of Schools and other public school teachers, it is claimed, would do more to advertise the resources of the coast than any other like number of people in the United States.

WASHINGTON, May 26.
The parade of the troops to-day for review by the President has afforded the first opportunity for seeing at once the entire body of those forming the encampment, and was an unqualified success. The head of the column reached the stand erected for the President and invited guests at noon. The reviewing stand had seats for nearly 300 persons and was well filled without crowding. With the President were Mrs. Cleveland, Mrs. Welch and Mrs. Morsey, and Colonel and Mrs. Lamont. General Sheridan and several members of his staff, in full uniform, were their escorts.

Parnell Accused of Coercion.

LONDON, May 26.
The *Express* (Conservative) accuses Parnell of cruelty to one of his Avondale tenants named Kennedy. In addition to this, Parnell has refused to make a 25 per cent reduction in the rent requested by Kennedy, and has sued him for a year's rent, due since April.

THE ANNEXATION OF CANADA.

NEW YORK, May 25.
The *World* will print a series of interviews with prominent men in Canada concerning the reported movement there in favor of a commercial union with the United States, if not of absolute annexation. Several notable representatives of banking and farming interests express themselves in favor of a commercial union. The *World* correspondent says he finds the sentiment among the farmers practically a unit in favor of the movement, and also notes the prevalence of the extreme discontent with the Dominion Government in Nova Scotia and New Brunswick and in the Northwest.

In the convention of the Brewers' Association to-day they adopted resolutions appropriating \$5,000 for the assistance of the brewers of Michigan, \$5,000 for the brewers of Texas and \$3,000 for the brewers of Tennessee. The money is to be used in defeating the efforts of the Prohibitionists in those States. An extra assessment equal to one year's dues was agreed upon to enable the Board of Trustees to fight the temperance fanatics in various parts of the country. William A. Miles, of New York, was elected President.

The amount of the suit will be close on to \$3,000,000. George Gould and Russell Sage to-day refused to speak on the matter.

FOREIGN DISPATCHES.

A Holocaust in Paris.

PARIS, May 26.
The Opera Comique took fire this evening. The building is now wrapped in flames. Several persons are injured. Fourteen persons, who jumped from the windows, are dead. Forty-three are injured. Probably many have been crushed to death in the galleries.

The fire broke out during the first act of the opera of "Mignon." One of the wings caught fire from a gas jet, and the entire stage was immediately enveloped in flames. The fire soon spread to the whole house. Madame Mergviller and Mme. Tasquin and Bernard were on the stage when the fire broke out. All the actors ran out. The audience got out easily, but the gas was turned off before all left the building, but it is feared some were left in the upper tiers. The roof, soon fell in, sending showers of sparks as far as the Place de la Bourse. With the exception of Madame Sellier, who perished, all the actors escaped, though a number were seriously injured. Five bodies, terribly burned, were conveyed to the National Library. Among them was the body of a woman, clasping a little boy in her arms. The firemen showed the greatest

courage. The military club rendered great assistance in the work of resisting the crowding of the people toward the building. Nineteen persons are known to be dead. The artificial fire apparatus, which had been placed in position, in readiness for the burning of the place in the second act, rolled down from its place near the roof, and exploded below. Women, half clad, carrying their costumes, fled from the stage screaming. The supers and members of the chorus were terrified. Some of the latter fled with nothing on but tights. The flames spread with such rapidity that in fifteen minutes the stage was a vast furnace. Several actors escaped by climbing to the roof on the side of the Rue Merisier, where they were rescued by fire escapes. M. Tasquin implored the audience to remain seated until the exits were opened, which they did. If they made a rush for the door the loss of life would have been terrible.

A figurante says there were 150 persons on the stage when the fire broke out. She heard glass breaking, but told the others not to mind it. But close above was speaking a column of flame broke through the wings with a roar, and all rushed pell mell from the stage. Most of the casualties so far reported are due to nervousness. Many persons who were unable to trust themselves to walk the narrow ledge of the cornice round the building jumped off in terror. One woman coolly walked around the cornice while the flames were bursting above her until she reached the fire escape. The victims are almost all singers. The streets in the vicinity of the burned theater were crowded until an early hour this morning. The doctors attended many persons who had been bruised.

Dead Bodies Lying in Heaps.

PARIS, May 26.
The bodies of the ballet dancers who lost their lives by the burning of the Opera Comique last night are lying in heaps in the ruins of the theater. Firemen assert that many bodies are lying in the upper galleries. The number of persons killed greatly exceeds previous estimates. An excited crowd surrounds the ruins, which are guarded by the military cordon.

Twenty bodies in a terribly mutilated condition have been recovered from the ruins. The remains are principally those of ballet girls, chorists and machinists.

4 P. M.—Twenty more bodies were recovered from the ruins this afternoon. The search continues. The remains of three men and two women were found in the stage box, where the victims had taken refuge from the flames. It has been ascertained that many bodies lie buried in the upper galleries, where escape was exceedingly difficult. The Government proposes to close several of the Paris theaters because of their deficiency in exits. Late this afternoon the bodies of 18 ladies, in full dress, were found lying together at the bottom of the staircase leading from the second story. These ladies all had escorts to the theater, but no remains of the men are found near where the women burned to death. The walls of the theater began falling this evening and search for bodies has been abandoned for the day. The library attached to the theater was entirely destroyed with all its contents, including many valuable scenes. Six thousand costumes were burned in the wardrobe.

A Plot to Assassinate the Sultan of Turkey.

BUCHAREST, May 26.
A plot to assassinate the Sultan of Turkey was discovered Tuesday. Extraordinary efforts have been made to conceal the discovery from the public. The effect of the plot on the Sultan is visible in the terror he exhibits. He made the usual weekly visit to the Mosque hurriedly, instead of with the usual slow and pompous parade.

WESTERN DISPATCHES.

Goldenson Gets Another Breathing Spell.

SAN FRANCISCO, May 26.
The Sheriff yesterday received official notification that notices of appeal had been duly served in the cases of Lee Chuck, sentenced to be hanged tomorrow, and Alexander Goldenson, the slayer of little Mamie Kelly, whose execution was set for the 10th prox. This gives each of the assassins another lease of life.

Miners' Consumption.

Many of the old Comstock miners are carried away with what is designated as "miners' consumption." Hot air, powder, smoke and dust are the producers of this deadly malady. A dry, hacking cough is the first intimation of its presence, and is followed by a loss of appetite and gradual emaciation. Men who entered the Comstock mines in a robust, healthy condition, some years ago, are now mere walking skeletons, waiting for the time to come when they shall be laid at rest. This fatal disease will not be so prevalent henceforth, owing to the fact that the mines are now well ventilated and much cooler than in days gone by.

The "Enterprise" Lease.

The Carson Tribune of yesterday says. The Enterprise is leased to Mr. Teggart, the present editor, who will take possession next Monday. The corporation steps down and out, and as their shadows pass away the chances are that the ghosts of Goodwin and Daggett will appear. A great paper has the Enterprise been, and great men have occupied its editorial chairs, and for that reason the Tribune wishes it continued success.

Mr. Cohn, for twenty-five years manager of the business affairs of the paper, retires from his old position on the 30th inst., but will remain to fix up the corporation affairs.

Remarkable Cure of Lumbago.

DENVER, Col. February 13, 1886. For nearly six years I suffered greatly with what the doctors called lumbago. I was unable to walk in that interval more than a few steps at a time, or to rise from a chair after once sitting down, without assistance. A friend urged me to give Allcock's Forous Plasters a trial, and he went and got some for me and put them on my back. I felt easier with them on than anything I had ever tried, and continued their use for nearly three months, changing them every week, until I was absolutely cured—cured so that from that day to this, nearly six months, I have been able to work.

District Court To-Day.

In the District Court to-day the demurrer in the case of Clark & Jones against the Pyramid Mining Company was argued and submitted, after which the case of Frey against Thompson was taken up, and the plaintiff asked and received permission to amend his complaint, upon the filing of which the defendant asked and obtained an adjournment of the case until the 27th day of June next.

The Next Theatrical Attraction.

Low Johnson's Black Baby Boy combination, to appear at the Nevada Theater next Wednesday evening, will probably be greeted with a packed house. All of the members are said to be stars, and keep one laughing during the entire performance. See their advertisement in this issue. Reserved seats now on sale at Thurston's bookstore.

Social Gathering.

A social will be given to-morrow evening at the residence of Rev. Wm. Lucas on Second street, commencing at half-past 7 o'clock. A cordial invitation is extended to all to be present.

Liberal Citizens.

The Fourth of July Finance Committee has raised for the celebration about \$875, and not more than two-thirds of the business men of Reno have been called on yet.

A SURPRISE.

Miss Jessie Jamison the Hostess of a Large and Unexpected Party of Friends last Night.

There was a very agreeable surprise at the Jamison residence on the corner of Plaza and West streets last evening. At about half-past 8 o'clock a party of ladies and gentlemen, numbering in all about 30, met at a house on Sierra street, and in a body visited the home mentioned. The party consisted almost entirely of members of Ada Chapter, No. 4, of the order of the Eastern Star, and the surprise was complete. The object of their visit was Miss Jessie Jamison, who has served faithfully as organist of the lodge, and who has at all times shown a zeal in behalf of the order and all orders pertaining to Masonry. Shortly after the party had entered the house and the ice cream and other refreshments they had taken with them placed in the care of the proper parties, Mr. L. L. Crockett arose and said:

Ladies and Gentlemen, Brothers and Sisters—Doubtless many of you are unaware of the object that has called us together here this evening. It partakes of the nature of a surprise. Life is made up to a greater or less degree of surprises—sometimes to our advantage and frequently otherwise. We are pleased to number this evening with the former. Often as we journey through life we are privileged to listen to one of the most important of the seven liberal arts and sciences to wit, music. The seven liberal sciences are classified as follows: Grammar, rhetoric, logic, arithmetic, geometry, music and astronomy, one of the most important of which is music. Music is that elevated science which affects the passions by sounds. It is a language of delightful sensation more eloquent than words. It touches and gently agitates the agreeable and sublime passions. It wraps us in melancholy and elevates us in joy. It serves to edify and to cheer, and often serves to break the monotony and lighten the burdens of life. It is an essential part in our modes of worship. It is an important feature in the rituals of many of our secret societies; in short, it has charms too numerous to enumerate. And without dwelling further upon the beauties emanating from this delightful science of which we have a high appreciation, let us simply say that we have met here this evening for the purpose of manifesting our appreciation of services rendered by our organist to our order of the Eastern Star. I, therefore, have the pleasure, on behalf of Ada Chapter No. 4, order of the Eastern Star, to present Miss Jessie Jamison this gold pin, which is an emblem of her office and a badge of our order. It is given not on account of its intrinsic value, but as a memento or reward of merit, which she has justly earned, and we hope, trust and believe that it will be received in that same kindly spirit in which it is given.

The presentation address was responded to by the recipient of the handsome gift by a simple, "Brothers and Sisters, this is entirely unexpected, and all I can say now is that I thank you kindly for it."

Vocal and instrumental music and cards and plays followed until half-past 10 o'clock, when refreshments were served, after which the party began to disperse. The affair was pleasant throughout.

Sheepmen Happy.

Sheepmen in this vicinity are well satisfied with the lamb and wool crop this season. The herds are looking remarkably well and are improving in appearance all the time. The Spring has been cool, but this has been a great advantage to the grass crop, which is doing well. Wool producers are very anxious to see work commenced on the proposed woolen mill here, and will do their part to keep the enterprise running. It is to be hoped that this will be the last season the Nevada wool crop will be transported to California and the East, to be manufactured into clothing, etc.

The first kiln at Ryland's brick yard will be ready to burn in about a week and will contain 150,000 brick. While this kiln is being burnt another one will be started that will contain in the neighborhood of 350,000. The cool weather this Spring has retarded work in the yard to some extent, but now that warm weather has come work will be continued without interruption until 1,000,000 or more brick have been made.

PERSONAL.

Chancellor Derby arrived here by the V. & T. last evening.

Lieutenant Governor Davis came down from Carson last night.

Hon. J. A. Stevens will be the orator at Virginia City on Decoration Day.

Nick Frayer, of Paradise Valley, passed through to San Francisco last night.

George W. Mapes left this morning for his ranch up north. He expects to be gone for about a week.

Reuben Rickard, the mining man, was a passenger on this morning's overland. He is bound for Colorado.

Valuable Information.

Mike McGowan, the man-eater, has been giving the Carson Appeal some valuable information. He has kindly explained the robbery of the Storey county safe while Denis Nevins was Treasurer, and has dispelled all the mystery attached to that affair. His description is vivid and as clear as mud. The Appeal deserves great credit for eliciting this important information from Mr. McGowan. All the officers have to do now is just to find out who tied Mr. Nevins and locked him up. They have probably never thought of this fact before. It would be a good idea to have Mr. McGowan aid in working up the case before his cannibalistic propensities get him into trouble again.

A False Rumor.

The report that the stamps of the Santiago mill are hung up on account of a lack of water in the Carson river, is incorrect. There is a volume of water now flowing between the banks sufficient to drive four times the number of stamps in the Santiago. The mill has been shut down for repair. It is too early in the season for the river to be effected by irrigating ditches to such an extent as to necessitate the closing down of the mills. This generally takes place in July or August, when the river is very low.

Reno's Woolen Scouring Mill.

From Mr. George Russell, who returned from Reno to Elko Monday, the Independent learns that the water-power of the old English mill property "will in time be utilized by a San Francisco firm, engaged in the manufacture of woolen goods, who will erect buildings and put in machinery for scouring and cleaning wool, though it is now too late to do anything with this season's clip."

Hold Them Up.

The immense amount of gas proceeding from the Riverside town has not yet stifled the nerves of Carsonites and it is with much pleasure our people realize the fact that they can hold their heads as high as their neighbors, notwithstanding the wondrous land boom at Reno. —Tribune.

What's the matter with their heads, Judge? Won't they stay without holding?

Flowers for Memorial Day.

The Women's Relief Corps requests that all parties having flowers to donate for Memorial Day leave the same at the Masonic Hall by 9 o'clock next Monday morning. It is hoped the contributions will be large, as usual.
